EDUCATION

B.E. Computer Science and Engineering

Chennai Institute of Technology, Chennai

12th Standard

CEOA Matriculation Higher Secondary School, Madurai

10th Standard

Landis Matriculation Higher Secondary School, Natham

CAREER OBJECTIVE

To secure a challenging position in Computer Science where I can apply my skills effectively. I aim to enhance my programming and problem-solving abilities through real-world experience. I am eager to learn new technologies and adapt to dynamic environments. I seek to contribute to organizational growth while developing my career. I am passionate about software development and continuous learning. I am committed to achieving both personal and professional goals. I aspire to become a skilled software developer.

INTERNSHIP EXPERIENCE

Completed a Full Stack Development internship course and obtained certification. Currently seeking new internship opportunities to gain practical experience.

PROJECTS

Peer Learning Platform for Programming Languages

Developed a peer learning platform to connect students and improve programming skills. Implemented skill assessment and partner matching system. Focused on collaborative problem-solving and knowledge sharing.

AI-Based Crop Disease Detection System

Built a CNN-based system to detect crop diseases from leaf images. Used Python and TensorFlow for development. Enabled image upload and disease prediction for early detection.

TECHNICAL & SOFT SKILLS

Programming: C, C++, Python (Basics)

Tools: MS Word, MS Excel

Web Development: Full Stack (Basic)

Soft Skills: Communication, Teamwork, Problem-Solving, Quick Learning

ACHIEVEMENTS

Earned a 50-day coding streak badge on LeetCode.
Solved 220+ problems on LeetCode.
Completed 237 problems on SkillRack.
Completed Full Stack Development internship.
Continuously improving technical and problem-solving skills.
